Hydrosil is a highly reflective Fluid Applied Professional Grade Silicone Coating System used to coat all existing roofing substrates. Silicone durability – excellent long term resistance to natural weathering including extreme temperatures, UV, rain & snow.

HYDROSIL SEAM SEALER & DETAILER.

Multi purpose product.

A premium silicone based multi purpose detailer for protection of seams, penetrations and fasteners on various roofing substrates. Forms a durable, breathable and weatherproof barrier that is highly resistant to degradation from UV and natural weathering.

Size: 7.5L Box Qty: 1 Prod.Codes: **AHYDSIL/SSD**

HYDROSIL SILICONE ROOF COATING.

A high performance, moisture curing liquid applied premium silicone coating. With superior coverage, Hydrosil covers over one and a half times that of a standard PU coating. Fast curing, durable, watertight and weatherproof barrier, excellent UV resistance and foot trafficable in 24 hours are just some of the product benefits.

Size: 3.78L 18.9L Box Qty: 1 1 Prod.Codes: **AHYDSIL/501** **AHYDSIL/601**

HYDROSIL REINFORCEMENT ROLL.

A non-woven, spun bonded 100% polyester used with the Hydrosil Seam Sealer & Detailer to reinforce seams, penetrations, joints or transitions that are subjected to high shear.

Size: 150mm x 100m Box Qty: 1 Prod.Codes: **AHYDSIL/ROLL**

The Metal-Kote fast acting formula is also a cost effective solution for bringing an entire roof back to life for just 40% of the cost of replacing it, and without the costly downtime.

METAL-KOTE.

Metal-Kote is a single coat, cold applied solution for renovating and waterproofing failing metal roofs. It can be applied directly in a single coat to combat flaking, rusting and peeling metal and plastic coated roofs, and requires no primer. The formula offers a 100% waterproofing formula and outstanding adhesion that can even fix tears in metal.

Size:	Colour:	PLT. Qty:	Prod.Codes:

LEADING ROOFING EXCELLENCE

The Vent3 Air from Cromar is an advanced, multi-layer design breather membrane designed for use in both warm and cold roof constructions. Engineered to provide superior ventilation allowing much needed air flow, moisture control, and durability, Vent3 Air ensures a healthier and more energy-efficient building envelope.

VENT3® AIR - 170GSM.

The use of VENT3® AIR roofing membranes can lead to several benefits, including improved energy efficiency, reduced risk of moisture-related issues, increased roof lifespan, and enhanced indoor comfort.

All Weather Roofing System

LIQUID ROOF

Liquid Roof is a one-component, fast curing, polyurethane based waterproofing system for flat and pitched roofs. Applied in two coats by brush or roller, Liquid Roof creates a solid, seamless, waterproof membrane that remains permanently flexible, making it the ideal solution for new installations, the refurbishment of old or to overlay most common roofing substrates. Liquid Roof comes ready to use and is cold applied by brush or roller, using moisture in the air to cure meaning no additional catalyst is required. And what's more, it will cure in many weather conditions becoming completely rain resistant in just 10 minutes,

even if a pool of water forms on top of it. Suitable for use on a variety of substrates, Liquid Roof is compatible with concrete, mortar, stone, fibre cement, roof tiles and metals. Not only that but it can also be applied to wood, asphalt, roofing felt and bituminous coatings with the use of full reinforcement in the form of Sikalastic® Fleece-120.

Liquid Roof

A SIKA COMPANY

Sika's popular range of adhesives and sealants is now available through Cromar, giving customers easier access to trusted, high-performance solutions for construction and roofing projects. This expansion strengthens Cromar's offering with proven Sika quality across key product lines.

Sealant and Adhesive

Sika® Stixall®

Sika® Stixall® is a combined adhesive and sealant, based on hybrid polymer technology, with extreme power to both bond and seal nearly everything in almost all conditions, even underwater and in the rain! Available in both cartridges and easi-squeeze tubes. CE Marked.

Solvent Free Adhesive

Sika® Instant Nails

Instant Nails is a high strength, solvent free, gap filling, multi use adhesive that provides a quick grab and replaces mechanical fixings in many home improvement applications. Dries white and may be overpainted if required.

Solvent Based Adhesive

Sika® Pinkgrip® Dry Fix FR

Pinkgrip Dry Fix FR is a revolutionary type of fast curing, adhesive foam that has been specially developed for the rapid installation of Plasterboard, Insulation Boards and other sheet materials such as Roof Decking and Floorboards. The Dual Flow system means that it can be applied using the nozzle provided or attached to the Dry Fix Applicator Gun. Pinkgrip Dry Fix FR provides significant labour saving and convenience benefits when compared to traditional dry wall adhesives. It will bond to most common building substrates; can be applied horizontally or vertically to the board, wall or battens/beams. Dry Fix FR conforms to the requirement of EN13501-1 Class E for fire rating.

Solvent Based Adhesive

Sika® Pinkgrip®

Sika® Pinkgrip® will stick just about anything on a building site that needs sticking. Its amazing grabbing strength not only removes the need to pin under the workpiece to prevent slumping, but its revolutionary initial 'Direct Bond' eliminates the need for double stick methods. Pinkgrip can be used inside and outside and adheres to just about every building substrate.

Scan the QR code to learn more about Sika's range of adhesives and sealants, now available from Cromar. Get product info, specs.

Multi-Use Wipes

Sika® Wonder Wipes

Multi-Use Wonder Wipes are specially formulated to clean hands, tools and surfaces from wet and semi-cured paint, sealant, adhesive, bitumen, expanding foam, oil, grease and even silicone. Useful when there is no water on site. Wonder Wipes contain a powerful anti-bacterial additive that is tested by an independent laboratory to BSEN 1276:2009.

Hybrid Polymer Adhesive

Sika® Multi Stick

Sika® Multi Stick is a superior grab adhesive with the ability to bond virtually anything to everything in both wet and dry conditions, even underwater or in the rain. With incredible initial grab, high bonding strength, and almost limitless applications, no tradesman should be without a tube of this next generation adhesive. Think of any bonding application and it is virtually certain Multi-Stick will handle it with ease.

Adhesive, Sealant and Filler

Sikaflex® EBT+

A multi-purpose, permanently- elastic, one-part, polyurethane adhesive and sealant. Sikaflex® EBT+ bonds to all common building materials; its excellent grab and gap filling properties makes it ideal for use in a wide range of building and maintenance applications.

Compatible as a trim adhesive for the Cromar GRP Trims.

Plaster Bonding Agent

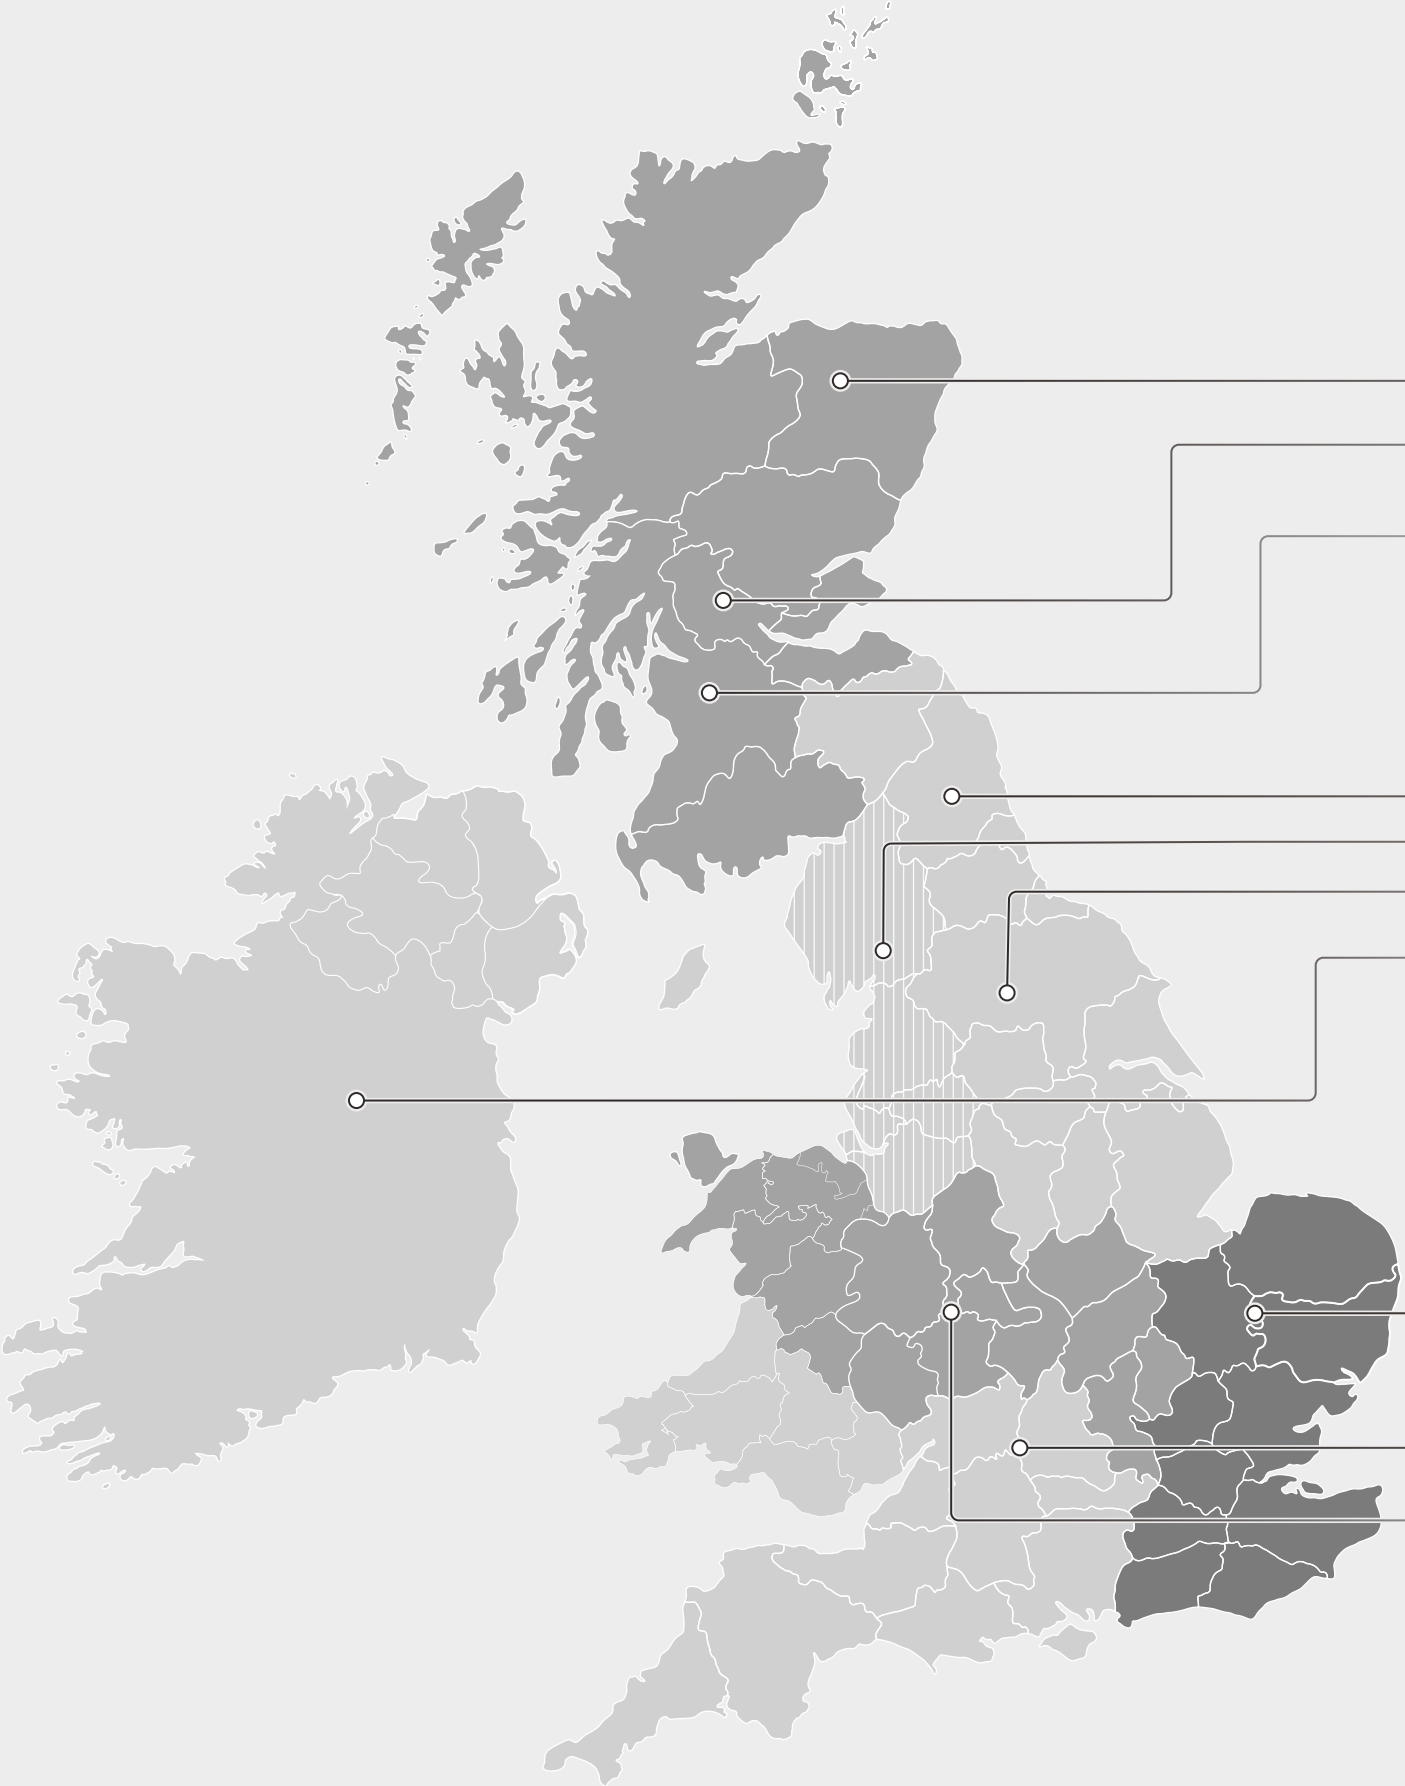

Sika® Blue Grit

Sika® Blue Grit is a high performance, plasterers grip coat bonding agent specifically designed to provide an improved key to smooth surfaces. Containing a fine aggregate, it provides a mechanical key to backgrounds such as plaster, concrete, painted surfaces, textured surfaces and ceramic tiles. One coat application, coloured blue to indicate coverage.
